OUTREACH EVENTS

Easter Egg Hunt
Project Back to School
Community Thanksgiving Dinner

OUR COMMUNITY

We are located on the border of West Valley City, Taylorsville and Kearns. Many of our visitors and participants come from these communities; but because of our convenient location, we welcome visitors from all neighborhoods across the Salt Lake Valley. We work with very diverse communities, and several of our participants are from Spanish speaking countries. We also work with individuals who have experienced chronic homelessness, the death of a loved one, and addiction to alcohol.

LEARNING OPPORTUNITIES

We utilize the Asset Based Community Development model and faith-based approach. We regularly implement tools such as Asset Mapping and Learning Conversations to inform and develop our programs and outreach. Practicum students have the opportunity to utilize these tools and implement them on a micro, macro, and mezzo level(s) in their program(s) of choice.

We exist to bring hope to the valley by providing a community of support to our neighbors as they navigate homelessness, addiction, hunger, poverty, grief and education.
