

# Reach Counseling, LLC

873 W Baxter Drive  
South Jordan Utah, 84095

[Reachcounselingutah.com](http://Reachcounselingutah.com)

Reach Counseling serves the south part of the Salt Lake Valley. We see **all ages, from children to adults, with all general diagnosis**. All clients are seen in a general outpatient setting. We also serve the **postpartum population** in a general outpatient and in an intensive outpatient setting. The IOP is Monday, Wednesday, and Thursday, from 10am-1pm.

Interns who work for us will see the above clientele, and will receive weekly supervision from one of the owners of the company. They will also have the possibility to work hand in hand with the clinicians who have been overseeing the IOP.

We are currently looking for interns who are flexible in their hours, and are willing to see clients as soon as they start their practicum. Interns need to have a general knowledge of how to do an intake with a client, write up a psychosocial, create a treatment plan, and do basic one on one therapy.

We are looking for interns are self-driven, highly motivated, comfortable with figuring some things out as they go, and wanting the private practice setting. There will be days where you will see back-to-back clients, and other days where you may only see a few. We expect our interns to see anywhere from 6-10 clients a week (depending on if they're involved with the IOP program).

We are currently seeking 2-3 interns total for our company.

Stipends: 1<sup>st</sup> year interns receive \$250 per semester, and 2<sup>nd</sup> year interns receive \$500 per semester.
