

December 14th, 2020

At TherapyUtah an intern would have the opportunity to see clinical clients in a variety of age ranges from 5 - 70+. We have a play room for children, teens and adult therapy. We specialize in the treatment of sexual addiction and betrayal trauma. However, due to solid word-of-mouth and a highly trained team we also see individuals presenting with diverse diagnosis: depression, anxiety, OCD, bi-polar, borderline personality, faith crisis, dissociative identity disorder and autism.

- We offer interns the opportunity to shadow our LIFT groups that are specific to the treatment of sexual addiction and betrayal trauma.
- We offer 3 one hour trainings each week.
- We offer a flexible schedule with hours that can range from early morning to evening hours.
- We have several well-trained clinicians with a diverse background that are generous with their knowledge and readily offer interns assistance.
- We have special projects available and front office work available until their client load occupies the maximum number of hours.
- We offer permanent job opportunities to interns that we feel would be a good fit for our team.
- Interns are paid \$25/clinical hours and \$15/non-clinical hours. On occasion, if a clinician cannot facilitate their group, an intern (with the approval of the Clinical Director) can facilitate a group at the rate of \$75/90 minute group.
- Therapy models used at TherapyUtah include, but are not limited to: EMDR, IFS, CBT, DBT and Gottman.
