3. AGENCY MISSION: The purpose of Touchstone Therapy Center, (TTC) is to provide outpatient treatment services to children, adolescents, and adults with emotional, behavioral and psychological problems. Treatment goals of TTC are to assist clients in developing more effective coping skills, enhancing self-esteem, improving family and social relationships, and appropriate pro- social behavior. TTC is dedicated to offering a multi-disciplinary approach that ensures consistent therapeutic care of the highest quality and integrity. All treatment offered is consistent with this philosophy and falls within the bounds of the code of ethics of each of the disciplines represented. All state licensing laws and regulations are closely adhered to without exception. Clients are informed of their rights and are consistently treated with respect. TTC establishes long and short-term goals that are individualized for each client. Short-term goals generally focus on improving coping skills, pro-social behavior and family relationships. Long-term goals focus on the resolution of specific developmental, emotional and behavioral issues. TTC provides the following services: individual, family, and mental health and parenting assessments.
