Social Justice Lecture Series: Allies for Equity 2016-2017
Presented by Voices of Diversity

Gender and Sexuality: Intersections of Identities

The 2016-2017 Social Justice Lecture Series: Allies for Equity will focus on overlapping or intersecting social identities and related systems of oppression, domination, or discrimination. Presenters will examine how various biological, social, and cultural categories such as gender, race, class, ability, sexual orientation, religion, caste, age, nationality, and other identities interact on multiple and often simultaneous levels. These presentations will foster an understanding of how systemic injustice and social inequality occur on a multidimensional basis, creating a system of oppression that reflects the “intersection” of multiple forms of discrimination.

September 13, 2016 (6:00 pm – 8:00 pm)
